Date Created: 06 March 2026

## Fees and Charges 2026/27 - Adoption

### Purpose Te Aronga o te Pūrongo

To set by resolution all Council fees and charges for the period 01 July 2026 to 30 June 2027.

### Recommendations Ngā Tūtohinga

That the Council adopts the activity fees and charges for the financial year commencing 01 July 2026 and ending 30 June 2027.

**AND**

That the Council delegates authority to the Chief Executive to make any minor changes to the Fees and Charges before publication.

Report prepared by:  
Amy Beazer  
Junior Policy Advisor

Approved for submission by:  
Frances Smorti  
General Manager – Corporate

## 1 Background Ngā Kōrero o Muri

- 1.1 Council is required to set fees and charges annually to ensure appropriate cost recovery across all service areas.
- 1.2 Fees and charges are calculated to recover the costs of providing services in accordance with the funding split proposed in Council's Revenue and Financing Policy. The fees and charges are required to recover the private component (i.e., user fees) of the funding splits, with the public component recovered through rates.
- 1.3 On 04 March 2026, Council adopted Statements of Proposal for Planning, Environmental Health, and Development Contributions fees and charges for public consultation. Consultation was undertaken from 06 March to 06 April 2026 in accordance with the Special Consultative Procedure, prescribed by Section 83 of the Local Government Act 2002. No submissions were received.
- 1.4 All other fees and charges have been reviewed as part of the Annual Plan process and are presented alongside the consulted fee and charges for adoption.

## 2 Strategic Fit Te Tautika ki te Rautaki

- 2.1 The setting of accurate fees and charges aligns with Council's strategic priority of: Value for money and excellence in local government - He kāinga ka eke tōna kāwanatanga ā-rohe ki ngā taumata o te kairangi, ensuring fair and transparent cost recovery.

## 3 Discussion and Options Considered Ngā Matapakinga me ngā Kōwhiringa i Wānangahia

- 3.1 A summary of the fees and charges to be adopted by Council are set out below. The proposed fees and service charges that are not set by regulations have been adjusted for inflation and rounded to the nearest dollar to ensure recovery of costs incurred:
  - Animal Control Services: fees and charges relating to animal control activities, including dog registration, impoundment, infringements, and enforcement services, as well as responses to other animal-related issues, in accordance with the Dog Control Act 1996 and other relevant legislation.
  - Alcohol Licensing Fees: set by the Sale and Supply of Alcohol (Fees) Regulations 2013.
  - Building Services: building services fees and charges have been set according to the Building Act 2004. These enable the Council to recover the costs associated with processing applications, undertaking inspections and related work. Infringement fees are determined by the Building (Infringement Offences, Fees and Forms) Regulations 2007.
  - Camping Grounds: fees for the cost of overnight stays at Council camping grounds.
  - Cemeteries: fees and charges relating to internments at the District's cemeteries.

- Local Government Official Information and Meetings Acts requests including requests for official information, Land Information Memoranda and Property Enquiries. These are set under the Local Government Official Information and Meetings Act 1987.
- Makino Aquatic Centre: fees and charges for use of the swimming pools, equipment hire and the range of swimming programmes provided.
- Manawatū District Libraries: fees and charges for library services.
- Parking: infringement fees have been set according to the Land Transport (Offences and Penalties) Amendment Regulations 2004 which fall under the Land Transport Act 1998.
- Parks, Reserves, and Sports Grounds: fees and charges relating to the use of Council parks, reserves, and sports grounds, including ground fees and hireage.
- Roading: fees for stock crossing and vehicles crossing consents, and engineering inspections for stock underpasses.
- Solid Waste: fees and charges for solid waste services, including recycling and waste transfer.
- Stormwater: fees for stormwater connections.
- Wastewater: fees and charges for wastewater services including wastewater connection and usage fees and trade waste charges.
- Water Supply: fees and charges for water supply services including rural water schemes managed by Council, connection and disconnection fees.

**Option 1 (Recommended):** Adopt all fees and charges as presented, ensuring alignment with the Revenue and Financing Policy and compliance with legislative requirements.

**Option 2:** Request amendments to the proposed fees and charges prior to adoption, where Council considers changes are required to ensure alignment with the Revenue and Financing Policy or legislative requirements.

#### 4 Risk Assessment Te Arotake Tūraru

- 4.1 There is a risk that Council may charge an incorrect amount for a specific service, which would result in under-recovery or overcharging of residents.
- 4.2 There is also a risk that an administrative error could result in the publication of an incorrect fee or charge.
- 4.3 These risks have been mitigated through cross-checking of fee line items against budget managers' spreadsheets and verification of formulas applied.

## 5 Engagement Te Whakapānga

### Significance of Decision

- 5.1 Consultation has been undertaken where required. Specifically, fees relating to Planning, Environmental Health, and Development Contributions were consulted on through the Special Consultative Procedure (section 83 of the Local Government Act 2002) as part of the Annual Plan process.
- 5.2 No further engagement is considered necessary for the remaining fees and charges, as these reflect operational adjustments (e.g. inflationary increases) and cost recovery requirements.

### Māori and Cultural Engagement

- 5.3 There are no known cultural considerations associated with the setting of fees and charges for these activity areas.

### Community Engagement

- 5.4 Consultation on Planning, Environmental Health, and Development Contributions fees was undertaken from 06 March to 06 April 2026. No submissions were received.

## 6 Operational Implications Ngā Pānga Whakahaere

- 6.1 There are no operational implications with this report.

## 7 Financial Implications Ngā Pānga Ahumoni

- 7.1 The majority of the proposed fees and charges have been increased by the rate of inflation. All fees and charges are set to ensure the Council recovers the costs incurred for delivering services, in accordance with Council's Revenue and Financing Policy.

## 8 Statutory Requirements Ngā Here ā-Ture

- 8.1 The power for local authorities to prescribe fees and charges is set by a number of statutes, including:
- Local Government Act 2002 (sections 12 and 150)
  - Building Act 2004
  - Dog Control Act 1996
  - Food Act 2014
  - Resource Management Act 1991
- 8.2 Consultation has been undertaken where legislatively required and in accordance with our Significance and Engagement Policy.

## 9 Next Steps Te Kokenga

- 9.1 Following adoption, the approved fees and charges will be finalised and formatted for publication.
- 9.2 The Fees and Charges Schedule will be published on Council's website and implemented from 01 July 2026.

## Building Services

Building Services fees and charges listed below have been set according to the Building Act 2004. They enable Manawatū District Council to recover the costs associated with processing applications, undertaking inspections and related work.

Fees determined by Building (Infringement Offences, Fees, and Forms) Regulations 2007 and are subject to change.

### Fixed Fees - Fast track building consents (10 working days)

In addition to the fixed charges are any bonds that may be applicable, any structural engineering checking fees, vehicle crossing processing and inspection fees and any legal or consultancy cost that Council may incur during the processing of the applications.

In addition to the charges prescribed by the Manawatū District Council, are levies imposed by the Building Research Association of New Zealand (BRANZ) and the Ministry of Business, Innovation and Employment (MBIE). The BRANZ levy of \$1.00 per \$1,000 is applied to all building consents and Certificates of Acceptance that have building work valued at \$20,444.00 (including GST) or more. The MBIE levy of \$1.75 per \$1,000 is applied to all building consents and Certificates of Acceptance that have building work valued at \$65,000.00 (including GST) or more.

Example 1: work value = \$30,000 BRANZ = \$30.00 MBIE = \$0 (as work is below the \$65,000.00 threshold)

Example 2: work value = \$65,000 BRANZ = \$65.00 MBIE = \$113.75

These levies could be subject to change by the relevant authority.

Fixed fees (excluding fireplaces and minor building work) include a fixed planning fee of \$50.00.

## Local Government Official Information and Meetings Act 1987 (LGOIMA)

		2026/27
<b>Fee Description</b>		
Official information requests will incur the following charges		
<b>Staff time</b>		
Time spent by staff searching for relevant material, abstracting, collating, copying, transcribing and supervising access, where the total time involved is in excess of one hour.		
	First hour	No charge
	Subsequent half hour (after the first hour) or part thereof	\$ 38.00
<b>Photocopying</b>		
Copying or printing on standard A4 paper where the total number of pages is in excess of 20 pages.		
\$0.20 per page after the first 20 pages		
<b>All other charges</b>		
Fixed at an amount which recovers the actual costs incurred. This includes:		
- the provision of documents on computer disks;		
- the retrieval of information off-site;		
- reproducing a film, video or audio recording;		
- arranging for the requester to hear or view an audio or visual recording; and		
- providing a copy of any map, plan or other document larger than A4 size.		
Note: These fees are intended to recover reasonable costs while ensuring fair access to official information. Guidelines endorsed by the Office of the Ombudsman for charging under the Local Government Official Information and Meetings Act 1987 (LGOIMA)		
Charges may be waived or modified at the discretion of the Chief Executive or a General Manager authorised by the Chief Executive. Waivers will be considered in situations where payment may cause financial hardship to the requestor, where the charge may become an unreasonable deterrent to seeking information and is therefore working against the LGOIMA principles.

Stock Underpass engineering inspection	\$ 1,580.00
Generic/Global Corridor Access Requests (Note 2)	By negotiation
Reinspection Fee for work in Road Corridor	\$ 128.00
Late completion or failure to notify completion	\$ 58.00
Temporary Road Closure Public Notification	At cost
Unapproved works (activities being undertaken without a WAP or TMP)	\$ 2,500.00
No notification of commencement of works	\$ 58.00
No Spray Zone signage	At cost
Requests for new road signs (subdivisions, private signs etc) see Note 3	At cost
Rural Stormwater Connection Fee	\$ 120.00

### Notes:

1. A Stock Crossing consent will only be required if the conditions under S29 of the Traffic Safety and Road Use Bylaw 2023 are not met
2. The Corridor Access Co-ordinator and utility operator will discuss and agree the costs for all Generic or Global Corridor Access Requests. This will be based on the Council staff and decision-maker charges as set out under "Planning Services" in Fees and Charges.
3. This is for requests for new street names, signs for organisations, churches, businesses and other signs which are not provided as part of the normal roading network

Date Created: 10 March 2026

## Application of the Common Seal between 13 November 2025 and 18 March 2026

### Purpose Te Aronga o te Pūrongo

To inform Council of documents that have been sealed under the Common Seal under delegation since the last schedule was prepared and presented to Council on 18 September 2025.

### Recommendations Ngā Tūtohunga

That Council receive and accept the schedule of sealed documents, listed in Section 10 of this report, from 13 November 2025 to 18 March 2026.

## 1 Background Ngā Kōrero o Muri

1.1 The following delegations apply to the use of the Council seal and authority to sign:

*The Chief Executive will be responsible for custody of the Council's seal. The seal may be attached to all documents which record the disposal or exchange of an interest in land (with the exception of residential tenancies) or other documents where it is appropriate to do so.*

It will be attached, however, only when:

- The Council or a committee has authorised the transaction involved; or
- The transaction involved has been authorised by an officer under delegated authority.

1.2 The Mayor and Chief Executive have delegated authority to approve the affixing of the common seal to any document and to sign every document to which the common seal is affixed. A list of documents to which the common seal is affixed shall be reported for information to the Mayor and Councillors from time to time.

## 2 Strategic Fit Te Tautika ki te Rautaki

2.1 Not applicable as this is a legislative / operational item.

## 3 Discussion and Options Considered Ngā Matapakinga me ngā Kōwhiringa i Wānangahia

3.1 A list of documents to which the common seal has been affixed is reported for information to the Mayor and Councillors on a regular basis.

## 4 Risk Assessment Te Arotake Tūraru

4.1 Not applicable.

## 5 Engagement Te Whakapānga

### Significance of Decision

5.1 The Council's Significance and Engagement Policy is not triggered by matters discussed in this report. No stakeholder engagement is required.

### Māori and Cultural Engagement

5.2 There are no known cultural considerations associated with the matters addressed in this report. No specific engagement with Māori or other ethnicity groups is necessary.

### Community Engagement

5.3 Community Engagement is not required.

## 6 Operational Implications Ngā Pānga Whakahaere

6.1 There are no operational implications with this report.

## 7 Financial Implications Ngā Pānga Ahumoni

7.1 There are no financial implications with this report.

## 8 Statutory Requirements Ngā Here ā-Ture

8.1 The use of the seal is detailed in the Local Government Act 2002, with Section 174 directing the use of the seal on warrants of authority that require an officer to enter private land.

## 9 Next Steps Te Kokenga

9.1 Not applicable.

## Manawatū District Population Projections

### Purpose Te Aronga o te Pūrongo

To seek endorsement of the population, household and age demographic projections prepared by Infometrics on behalf of the Manawatū District Council (attached). A determination is sought as to whether Council wishes to endorse the “high” or “medium” scenario for use in our 2027-37 Long-term Plan, and other documents under development, such as activity/asset management plans.

### Recommendations Ngā Tūtohinga

That the Council endorses the high growth scenario projections (population, household and age demographics) provided by Infometrics and approves them for use in the Long-term Plan 2027-37 and all related documents.

**OR**

That the Council endorses the medium growth projections (population, household and age demographics) provided by Infometrics and approves them for use in the Long-term Plan 2027-37 and all related documents.

## 1 Background Ngā Kōrero o Muri

- 1.1 The attachment, *Population, Households and Age Infometrics Projections*, includes low, medium, and high growth scenarios for population, households, and five-year age groups. These projections are key inputs for future planning in the District. The population and household projections they have been split into Feilding, and Rural and Villages.
- 1.2 In December 2025, Council officers commissioned Infometrics to prepare updated projections for the Manawātū District for the period from 2027 to 2057.
- 1.3 The Infometrics population projection model is economically driven, using regional employment forecasts to inform Infometrics net migration projection. Their approach builds on the cohort component approach. They consider how births, deaths, migration, household formation, and labour force participation affect the population at each stage of life. This means that the projections reflect both demographic processes and the economic prospects of an area.
- 1.4 Infometrics estimate the number of households and average household size based on projected changes in the sex and age structure of the population (such as a growing older-age population) and trends in household formation.
- 1.5 Officers also spoke with neighbouring councils to explore opportunities for a coordinated regional approach to engaging Infometrics.
- 1.6 Once the initial projections were received from Infometrics, further work was undertaken by officers to ensure they aligned with local knowledge and expectations. This included Council’s Data, Insights and Research Analyst working alongside the Planning team, and with the Palmerston North City Council economist, to sense-check the projections and some of the underlying assumptions.
- 1.7 Council’s Data, Insights and Research Analyst and the Planning team provided feedback to Infometrics in order to revise the projections to ensure the growth figures accurately reflect known local trends and drivers.
- 1.8 Council also engaged Infometrics to prepare the projections that informed our 2024-34 Long-term Plan. These projections have proven to be reasonably accurate, with actual district growth tracking between the medium and high growth scenarios provided by Infometrics.

Table 1: Actual growth compared to previous population projections

	2024	2025
Actual Growth	1.2%	1.2%
Infometrics Projections Medium	1.1%	1.1%
Infometrics Projections High (Used in LTP)	1.6%	1.6%

- 1.9 Council also engaged Infometrics to prepare population and household projections at a finer, SA2 (Statistical Area 2) level. These SA2-based projections will support Council’s future growth planning and the delivery of water services. These projections are intended to inform planning beyond the Long-term Plan, ensuring Council is well positioned to serve the community as it transitions to regional spatial planning.
- 1.10 The draft projections (attached) were provided to the Long-term Plan Focus Group on 11 March 2026. No feedback was received.

## 2 Strategic Fit Te Tautika ki te Rautaki

2.1 All of Council’s strategic priorities are relevant to this report as these assumptions are a key input into the development of the Long-term Plan.

## 3 Discussion and Options Considered Ngā Matapakinga me ngā Kōwhiringa i Wānangahia

3.1 The first option (Recommendation 1) is for Council to adopt the Infometrics high scenario projections. Based on internal discussions, this is considered a realistic representation of potential population growth in the Manawatū District. Under this scenario, the District’s population is projected to increase by 11,535 people between 2027 and 2057, equating to an average annual growth rate of 1.1%. Table 2 below provides a more detailed breakdown of the average annual population growth rate for Feilding and for rural and village areas at various intervals over the life of the Long-term Plan and related strategies (such as the Infrastructure Strategy) from 2027 to 2057.

Table 2: Population Projection Growth

High Scenario	3 year growth	10 year growth	20 year growth	30 year growth
Feilding	1.5% per annum	1.3% per annum	1.3% per annum	1.1% per annum
Rural and Villages	1.1% per annum	1.0% per annum	1.0% per annum	0.5% per annum

3.2 The second option (Recommendation 2) is for Council to adopt the Infometrics medium growth scenario. This is also considered a realistic scenario based on internal discussions. Under this scenario, the population is projected to increase by 5,993 people between 2027 and 2057, representing an average annual growth rate of 0.6%. Table 3 below provides a more detailed breakdown of the average annual population growth rate for Feilding and for rural and village areas at various intervals over the life of the Long-term Plan and related strategies (such as the Infrastructure Strategy) from 2027 to 2057.

Table 3: Population Projection Growth

Medium Scenario	3 year growth	10 year growth	20 year growth	30 year growth
Feilding	0.7% per annum	0.7% per annum	0.7% per annum	0.7% per annum
Rural and Villages	0.4% per annum	0.5% per annum	0.4% per annum	0.3% per annum

3.3 The third option is for Council to adopt the Infometrics low growth scenario. This option is not recommended by officers, as it is considered unlikely to accurately forecast projected growth for the District, based on current trends and local knowledge. Under this scenario, the population is projected to increase by 927 people between 2027 and 2057, equating to an average annual growth rate of 0.1%.

3.4 The below table shows the actual annual percentage of population growth across the Manawatū District over the period from 2019 to 2025.

Table 4: The Actual historical population growth

	2019	2020	2021	2022	2023	2024	2025
Population Growth	1.3%	1.9%	1.6%	0.6%	1.2%	1.2%	1.2%

3.5 Officer recommendation: We recommend that Council adopt Recommendation 1, being endorsement of Infometrics high growth scenario projections. This option provides a prudent and realistic basis for planning, ensuring that future infrastructure and service needs can be adequately anticipated and provided for.

## 4 Risk Assessment Te Arotake Tūraru

### 4.1 Risk of overestimating population:

4.1.1 If population growth is significantly lower than forecast, Council revenue from rates and development contributions may be lower than anticipated. This could result in delays to planned investment in roading and community infrastructure. Reduced revenue may also place additional financial pressure on existing ratepayers to fund capital projects and service delivery.

4.1.2 Overestimation may also lead to an oversupply of facilities and services planned by Council, government ministries, and external agencies that rely on these projections, including in health, education, social housing, community infrastructure, and business development.

### 4.2 Risk of underestimating population:

4.2.1 If population growth is significantly higher than forecast, existing roading and community infrastructure may not have sufficient capacity to meet demand, potentially impacting levels of service. Council may also need to rezone land earlier than planned to accommodate housing demand.

4.2.2 As government ministries and external agencies rely on Council's population projections for their own planning, underestimation may result in insufficient provision of services and facilities, including in health, education, social housing, and community infrastructure. This misalignment could negatively affect community wellbeing.

### 4.3 Mitigations:

4.3.1 Council regularly monitors population growth and development trends through:

- (i) Monitoring and reporting under the National Policy Statement – Urban Development (NPS-UD);
- (ii) Annual Estimated Resident Population (ERP) from Statistics New Zealand;
- (iii) Long-term Plan process, where updated projections are commissioned and independently reviewed.

4.3.2 Major projects and changes to levels of service are assessed for affordability through the Annual Plan process. Subdivision and building consent data are also used to inform annual updates to the Development Contributions Policy schedules. These processes enable Council to compare actual growth with projected growth, and to adjust the timing and scale of capital investment as needed. Where appropriate, growth-related projects may be deferred if there is sufficient existing capacity in the roading network.

## 5 Engagement Te Whakapānga

### Significance of Decision

- 5.1 The Council's Significance and Engagement Policy is not triggered by matters discussed in this report. No stakeholder engagement is required.
- 5.2 This is an input into the 2027-37 Long-term Plan. The Long-term Plan itself will be consulted on using the special consultative procedure in early 2027. All members of the community will have an opportunity to submit on any aspect of the plan including underlying assumptions.

### Māori and Cultural Engagement

- 5.3 There are no known cultural considerations associated with the matters addressed in this report. No specific engagement with Māori or other ethnicity groups is necessary.

### Community Engagement

- 5.4 No consultation has been carried out to date.

## 6 Operational Implications Ngā Pānga Whakahaere

- 6.1 Once endorsed, these projections will be used to develop Council's significant forecasting assumptions and will be shared with operational staff to assist with their forward planning (e.g. capacity modelling for infrastructure).

## 7 Financial Implications Ngā Pānga Ahumoni

- 7.1 The total cost of the population projections was \$11,000 + GST. By working collaboratively with our Councils in our region, Council was able to secure a \$1,000 discount.
- 7.2 As the SA2-based projections are used across multiple areas of Council business, including the Long-term Plan, three waters, and growth planning, the cost was split across departments, and was able to be accommodated within their existing operational budgets.

## 8 Statutory Requirements Ngā Here ā-Ture

- 8.1 Population projections are required by the Local Government Act (2002) for inclusion in the Financial Strategy (s101A (3)(a)(i)), and as a significant forecasting assumption for inclusion in Council's Long-term Plan (Schedule 10, part 1, clause 17).

## 9 Next Steps Te Kokenga

- 9.1 Once council has confirmed its preferred scenario from Infometrics projections (medium or high), this data will inform the development of corresponding significant forecasting assumptions for inclusion in the 2027-37 Long-term Plan.
- 9.2 These significant forecasting assumptions will be part of supporting information that will be presented to council for approval to submit to Audit New Zealand.

9.3 In accordance with section 93C(4) of the Local Government Act 2002, the consultation report must contain a report from the Auditor General on the quality of the information and assumptions underlying the information provided.
