## Submission Form

## Have your say on

## Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

#### Option 01

# Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

#### Option 02

### 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

#### Option 03

## 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

9. Please tell us why you selected the above as your preferred option?

Newspaper

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC preference water management done well.

Please tell us why you did not select the other two options as your preferred option. Prefer local management, not joining with other Coucils to manage water.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Yes

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

I have no desire for the assets to go outside the MDC authority. I also have no desire to pay more than what we already are.

Please tell us why you did not select the other two options as your preferred option.

I do not wish to pay more, we already pay one of the highest rates per annum than anywhere else in NZ.

I want the MDC to have the control of all things that I am paying for.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC know what our system performs and what is required in the future.

Please tell us why you did not select the other two options as your preferred option. Could be buying into a can of worms, may require large amounts of money to bring their systems upto standard. Being larger supply areas could well draw on our resources and to the detriment of the Manawatu. Possible that rate increases could be disproportional to area of the Manawatu. (subsidising the other entities).

Please share any other feedback you have about water service delivery in the future. Given the lack of rain this year, there may be a need to secure additional water supply and/or storage in the future, particularly if Feilding is developed with housing and commercial facilities.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

MDC has a great community to protect and I believe 'sharing' this with 'others' would not keep within the protection of this community.

Please tell us why you did not select the other two options as your preferred option. 'others' would not have the best interests for our MDC area.

Please share any other feedback you have about water service delivery in the future. Water services need to be kept local. This helps protect and prioritise our community and MDC area.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### Please tell us why you selected the above as your preferred option.

Current system although expensive to set up is better than our neighbours and so would be subsidising them by joining with them.

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

I don't believe it is not beneficial for Feilding ratepayers to team up with other councils in a Council Controlled Organisation. Feilding's infrastructure is in good shape. I am sure the ratepayer do not want to be subsidising other councils that have not invested in theirs. I want to send a clear message to central government that we want MDC to continue providing our water services on its own.

Please tell us why you did not select the other two options as your preferred option.

No

How did you hear about this Consultation?

Other

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

One key point we are highlighting, is the importance of the MDC maintaining control over its own water services. By doing so, the council can ensure that local funds stay within the community and that ratepayers are receiving the value they're paying for, rather than supporting the needs of larger neighboring regions. We are also concerned about the water challenges faced by areas like Horowhenua and Palmerston North, and feel that they should be addressing their own issues without burdening our area.

#### Please tell us why you did not select the other two options as your preferred option.

The move to large water entities could potentially significantly change the way water infrastructure and services are delivered in our District and how MDC is funded, as control of the water services would no longer fall under MDC's authority.

Local representation: MDC must not lose its ability to promote its community's needs and wishes

Please share any other feedback you have about water service delivery in the future.

We need to be advocating for local autonomy and ensuring that decision-making about essential services, like water, remains close to the people it affects.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

This option makes the most sense economically for ratepayers. best to keep it " in house", so that the Council will have total control of their own water scheme(s).

Please tell us why you did not select the other two options as your preferred option.

The cost to Manawatu ratepayers would be huge as we will be subsidising other councils to bring their water reticulation up to standard.

Please share any other feedback you have about water service delivery in the future. Careful monitoring of water reticulation/service delivery in the district by the MDC will be essential.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Drinking water connected to MDC Wastewater connected to MDC

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

As a rate payer we have already contributed considerable amounts to maintain/upgrade and develop MDC's three waters over the past 20 plus years.

Not keen to subsidise another region to achieve the same.

#### Please tell us why you did not select the other two options as your preferred option.

As above, if other councils have delayed upgrading and investment- that's an issue for the rate payers within that region.

I have endured elevated rates bills for a number of years (compared to other similar regions) on the understanding the systems were being future proofed - subsidizing other regions to do the same does not sit well

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to

manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

We as ratepayers have funded a excellent wastewater system that works well.

Please tell us why you did not select the other two options as your preferred option.

Palmerston North city will have to spend an incredible amount of money to get there wastewater systems compliant

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Newspaper

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Primarily, I would like the council to retain authority over our water services. This ensures that we are consulted in the future. Secondly, residents of Manawatu will have better control and can influence the services when required.

#### Please tell us why you did not select the other two options as your preferred option.

Water services are important. It will be even more important in the future as the population increases, demands increase and low supply due to climate change. Keeping this is in mind, it is good to reduce bureaucracy which will obviously come with a larger independent organisation. Besides, the needs of larger cities/towns will overshadow Feilding's needs and we will not have much say in it. Therefore, I'm not in favour of Option 2 & Option 3.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

MDC has successfully managed its water infrastructure for many years in a fiscally responsible manner and does not need to be penalized financially because of the mismanagement of water services by Palmerston North CC.

Please tell us why you did not select the other two options as your preferred option.

Not fair on mdc rate payers to be saddled with incompetent decision making by other councils.

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Don't want anything to do the PNCC continued mismanagement

Please tell us why you did not select the other two options as your preferred option.

Same as above

Please share any other feedback you have about water service delivery in the future. MDC appear to handle water management very well.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

As a rate payer we have a Council that has managed the water infrastructure well. This has set it up for the future or the district, they constantly monitor the system and tweak it where necessary to improve the system. This an asset that should be handed over to others to control.

### Please tell us why you did not select the other two options as your preferred option.

I don't see why the districts assets be taken away from our council control and given to a committee to control. this means the rate payers will footing the bill of councils that have not planned ahead properly for their infrastructure needs concerning water management

Other

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

I feel the option (Option 1) I have selected reflex's the trust in the Council to provide for the community the 3 waters as per Governments requirements. The Manawatu District Council has been proactive with it recognition of its obligations to the communities within its geographical boundaries and has planned and implemented upgrades of its infrastructure assets so it complies with the requirements of central govt. The planning and funding, which has been undertaken has ensured the this is achieved, this has meant higher rates required but has been eased in over a longer period to lessen the impact on the rate payers and has resulted in superior assets which other councils wished they had done.

#### Please tell us why you did not select the other two options as your preferred option.

I feel that other two options as described would be a backward step for MDC as the forward planning and future works would not take place in the time frame that has been allocated. This would mean that this work would be deferred until the other councils problems had been remedied. As my understanding if a CCO was put in place to control the operations and prioritising of remedial work across the two or four councils portrayed in the options would mean that ongoing upgrades for works within the MDC area would be shelved and the rate monies collected within the MDC boundaries would be used in the other councils areas to help them come up to standard. The loss of control on local assets which have been worked on by the diligent people within MDC would be wasted. I think the option to join with PNCC and having them as a partner council would be like big brother taking over, if they were so good at what they do, how is it that they are in this situation, they should also be looking to going it alone. Their rate take is fare greater than that of MDC, but clearly don't have the staff who are providing with the in-site as what is needed to achieve the central govt requirements.

Please share any other feedback you have about water service delivery in the future. I think MDC should carry on with the good works they are doing and continue to do, maybe we should contract our services to these other councils ie PNCC and we take on their allocated rate monies and sort their issues for the future but this would mean that MDC would have to have a surplus personnel to be able to do that.

12 Wellesley St Feilding

#### Age Group:

60-79

Are you submitting on behalf of an organisation?

No

Are you an MDC trade waste and/or commercial water customer?

No

#### My property has:

Drinking water connected to MDC Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

No

Social Media MDC Website

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Except for neighbours water flowing through my property and the hillside dangerous I'm happy with the current situation especially not having to pay for water .... although perhaps the neighbours should

Please tell us why you did not select the other two options as your preferred option. MDC has invested substantial funds into our water system over the years - we've paid for it in rates ... other options would have us paying for water

Please share any other feedback you have about water service delivery in the future. It would be interesting to know which properties use excess water

# Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

### Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

9. Please tell us why you selected the above as your preferred option?

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

# Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

# Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

I see firsthand how well our team manage our water, and I think this is the best option for MDC Ratepayers.

Please tell us why you did not select the other two options as your preferred option.

Why should we fund other councils who need significant upgrades to their network. I also think if we choose either of these two options, we will lose the control and decisions for our own area.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

No

### My property has:

Drinking water connected to MDC

Wastewater connected to MDC

# Would you like to come to a hearing and speak to Elected Members about your submission?

No

### How did you hear about this Consultation?

Newspaper

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

I prefer that we plan and maintain our own water infrastructure so that costs and development can be better focused on just the Manawatu district with it's make up of small towns. Forward planning seems to be working well meaning that rates can be better controlled.

Please tell us why you did not select the other two options as your preferred option.

I can't see any advantages for Manawatu district if we are amalgamated with PNth city or with PNth and Kapiti. Our district already encompasses a large land area which has unique requirements needing specific focus.

Please share any other feedback you have about water service delivery in the future. Keep up smart planning for the future.

|  |
| The options:   |

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

Kiwitea Water Scheme does an excellent job of supplying and maintaining water supply for our local community. Leaks are dealt with promptly, notification of issues also prompt, excellent, dedicated staff running it. Costs are controlled and we are charged a reasonable rate.

### Please tell us why you did not select the other two options as your preferred option.

MDC could spend some time inspecting their own pipelines: A drive to Feilding from Cheltenham shows up the numerous leaks in the Feilding supply line. Loss of chemical, cost of pumping, huge waste. Going to a monopoly scenario is NEVER more efficient than locally owned and controlled. No one will care our stock are out of water in the city. We will be last on the priority list, towns always seen to first - look at electricity outages.

Please share any other feedback you have about water service delivery in the future. Water and the flow of it - whether in excess or deficiency - are better monitored by local people with 'skin in the game'. Whether water restrictions are needed, or a town is flooding, locals are dealing with the job very well.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

#### Other

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

More local control to provide for the needs of our area.

No subsidizing other areas outside of Local Council control.

### Please tell us why you did not select the other two options as your preferred option.

Less control over providing for our area's needs.

Less accountability - where you may end up having to fight for your rights.

#### Please share any other feedback you have about water service delivery in the future.

There is great benefit in Local Council & private investors working together, each with clear mandates. Council holds the best interest of its people at the forefront and privatization ensures that the best fiscal/strategic plan gets implemented to ensure long-term viability. Neither can be BEST on their own.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to

manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC has invested well in this space and although it has meant that we have had higher rates than some TA's, it has proven that MDC can manage local water well.

Please tell us why you did not select the other two options as your preferred option. Real concerns over PNCC's investment in the past and costs being passed onto a wider group than the city residence.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

From my understanding MDC have a well maintained water systems and doubt if an amalganation will have any cost benifit to rate payers unless there is a conciderable cost saving with shared complience costs

### Please tell us why you did not select the other two options as your preferred option.

I have concerns that cross subsidies could be detrimental to our rate payers. Have not seen any documentation that would clearly show amalganation would be an improvement on the status quo

### Please share any other feedback you have about water service delivery in the future.

My only concern is that the monitoring and quality of the drinking water is well controlled in particular the small rural systems

Keen on drinking water metering but only if metering is used to locate and control waste and not an easy cross subsity for rate increases

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

Option one is the only sensible choice.

Why would we join with other councils who would need our money to bail them out.

Then our rates go up and people struggle and fight.

### Please tell us why you did not select the other two options as your preferred option.

Not sensible workable options.

We have a good infrastructure as it is.

We don't need to take on other councils shoddy works.

## **Local Water Done Well Form Submission**

| There has been a submission of the form Local Water Done Well through your Make you mark Manawatū website. |
|--|
| First and Last Name:   |
| Phone (day):   |
|  |
| Email:   |
| Postal Address:  |
| <b>Age Group:</b> 40-59  |
| Are you submitting on behalf of an organisation? No  |
| Are you an MDC trade waste and/or commercial water customer? No  |
| My property has: None of the above   |
| Would you like to come to a hearing and speak to Elected Members about your submission?  No                |
| How did you hear about this Consultation?  |

#### Word of Mouth

### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

Because we shouldn't take on any more debt from other councils not managing their water correctly.

This just seems like another attempt at 3 waters.

If option 1 is not carried out I will be disputing my rates payments.

Please tell us why you did not select the other two options as your preferred option.

As above

### Please share any other feedback you have about water service delivery in the future.

Any public water supply by council should not be floridated or treated with any other proven neurotoxins.

This is mandatory medication which is against human rights and laws in this country.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Yes

| Would you like to come to a hearing and speak to Elected Members about your submission? No               |
| How did you hear about this Consultation? Word of Mouth  |
| The options:   |

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

Because it keeps the situation as is, and doesn't introduce other councils water problems and their additional costs.

Please tell us why you did not select the other two options as your preferred option. Because if more additional steps and processes are added to the water delivery, rates bills are going to increase.

### Please share any other feedback you have about water service delivery in the future.

I'd highly recommend not fluoridating the water supply. The fluoride issued by government is not the naturally generating mineral found underground - but instead a neurotoxin that is highly dangerous to human consumption.

It is a byproduct of agricultural fertiliser which as you could probably guess, isn't good for you with all those corrosive and toxic labels on it.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Social Media

#### The options:

Option 03: A multi-council Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

### Please tell us why you selected the above as your preferred option.

I don't believe what you have said in your consultation book or what u said at mtnga. If you are that good at looking after water then why do our streets flood every time it rains.

I think this is a shortsighted decision based on being reelected and is not in the best interests of our community. Scale matters and it's more than just cost. Our services could improve if we joined other councils.

Please tell us why you did not select the other two options as your preferred option. Not opposed to partnering with pncc. But more councils the better

As I said, I don't believe the information you have provided is transparent

Please share any other feedback you have about water service delivery in the future. Iwi must be at the top table

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

### Please tell us why you selected the above as your preferred option.

because mdc is the only council I know of that have seem to have this sorted.

### Please tell us why you did not select the other two options as your preferred option.

Palmerston north have put off spending for years and now have a huge bill coming which shouldn't be lumped onto Manawatu ratepayers who have already paid to build this infrastructure.

Are you an MDC trade waste and/or commercial water customer?

No

### My property has:

None of the above

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Because our mayor is a good local lady and i believe she knows what is best for Feilding. We dont need joint councils or the likes.

We all know councils dont have much say these days and the people in govt are no better

#### Please tell us why you did not select the other two options as your preferred option.

We dont need other councils involved in our town.

What does Kapiti know about the manawatu?

And look at the state of Palmeston North these days

#### Please share any other feedback you have about water service delivery in the future.

What is this? Three waters round two?

I thought thathad been scrapped? Obviously not

#### Please tell us why you selected the above as your preferred option.

There is an old proverb: "If it is not broke leave it alone!" That is the case here. MDC have done a great job in the past and let them carry on into the future.

Please tell us why you did not select the other two options as your preferred option.

Rates are getting beyond control and so 2 & 3 are not an option at all!

| How did you hear about this Consultation?   |

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

that we get the cost of that managed by MDC through our rates.

I prefer this option as I believe MDC have and are already doing a great job for its rate payers with LWDW. I cannot see the point and then potential burden on everyone if we were to go down the path of jointly owning infrastructure with other local authorities.

While we do have water connected it is from the Kiwitea Rural water scheme and appreciate

Please tell us why you did not select the other two options as your preferred option. Option two with PNCC is not an option when you consider the poor prioritising of needs vs wants by PNCC in their LTP. A recent audit has not shown them in good light.

I get we share boundaries, but I would prefer we stick to dealing with our own infrastructure

vs others.

Please share any other feedback you have about water service delivery in the future. Looking ahead I think removing the Kimbolton village the existing waste water system and resource consent issues would be a good idea. Like Sanson could we have our waste water piped to Feilding?

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Our council has done a lot of work and spent a lot of money on making sure our infrastructure is in good shape. We should not have to join with other districts and subsidise their infrastructure which may not be in good shape.

This option is the best long term option for Feilding rate payers. Other options will lead to a great rates increases in the coming years.

Please tell us why you did not select the other two options as your preferred option. As above.

I believe this is the best option for Feilding.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Yes

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

MDC has been investing in water assets over a period of time, and our rates have reflected this. We now have quality, reliable water services. Why should our water services costs go up to subsidise the upgrades of other regions who have had a lower rates bill in the past?

Please tell us why you did not select the other two options as your preferred option. Why should our water services costs go up to subsidise the upgrades of other regions who have had a lower rates bill in the past?

MDC has been investing in water assets over a period of time, and our rates have reflected this. We now have quality, reliable water services. Why should our water services costs go up to subsidise the upgrades of other regions who have had a lower rates bill in the past?

Please tell us why you did not select the other two options as your preferred option. Why should our water services costs go up to subsidise the upgrades of other regions who have had a lower rates bill in the past?

Please share any other feedback you have about water service delivery in the future. We buy water from MDC to deliver to mostly MDC rate payers (lifestyle and small town dwellings.

Why do we pay double the amount other commercial users pay?

While I accept someone needs to read the meter and write invoices, this is also done for other commercial users. There is very little network to maintain between the source and the filling point, and only one meter to maintain and read... what is there to justify the significant additional m³ cost (compared to other commercial users)?

# Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

#### Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

| Because MDC have managed water diligently                                      |
|--|
| in our region and have local control, I feel our                               |
| rates would go up significantly should mDC subsidise other councils & regions. |
|  |
|  |

# Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

## Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

My choice is option 02

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

√ My choice is option 01

# Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District
Council and Palmerston
North City Council for the
delivery of water services
in the Manawatū District.

My choice is option 02

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services in the
Manawatū District.

My choice is option 03

| With Feilding Corncil having already updated our water describes and paying rates accordingly, seems unfair that we again face rate increases to subsidise the improvements of other towns/cities— |

#### Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

# Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District
Council and Palmerston
North City Council for the
delivery of water services
in the Manawatū District.

My choice is option 02

# Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services in the
Manawatū District.

My choice is option 03

Council's

## Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

## Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

### Option 03 'The Four

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenna District Council
Kapiti Coast District Council
Palmerston North City
Council, Manawatu District
Council for the delivery
of water services across
all Councils

My choice is option 03

| 9. | Please ' | tell us | why you | selected | the above | as your | preferred | option? |

# Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's Preferred Option

# Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

## Option 02 'The Two'

A multi-council Water
Services Council
Controlled Organisation
jointly owned by
Manawatū District Council
and Palmerston North City
Council for the delivery
of water services across
both Councils.

My choice is option 02

## Option 03 'The Four'

A Water Services Council
Controlled Organisation
jointly owned by
Horowhenua District Council,
Kāpiti Coast District Council,
Palmerston North City
Council, Manawatū District
Council for the delivery
of water services across
all Councils.

My choice is option 03

- 9. Please tell us why you selected the above as your preferred option?
- District council will continue to deliver a well managed service to the District in all regards in particular our water services.
- 2) I do not wish to goined or owned by the Palmerston North City Council in any way as I feel it would not be evenly shared.
- 3) as for the third (3rd) option, to be joined with three (3) other district councils, would incur rate rises 'above' what I expect will be implemented within own current MDC expected increase.

MDC Website

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Our water is in a good position locally and we dont need the added cost of other Councils mis-management.

Please tell us why you did not select the other two options as your preferred option. I dont believe that the other Councils have managed their water properly. To add that debt to our Council will end up costing us more.

Please share any other feedback you have about water service delivery in the future. At this stage I have nothing more to add but may do for future decisions.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Our water us in a good position, so why change what is working.

Please tell us why you did not select the other two options as your preferred option. Why connect us with PNCC or HDC as they haven't managed there water locally as well as us. Better to stay as we are to save cost.

Please share any other feedback you have about water service delivery in the future. Maybe later, depending on the outcome.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

The Manawatu District has probably one of the best drinking/waste water services in NZ and as rate payers we have paid for it with some of the most expensive rates in the country. It belongs to us, let's keep to that way.

Please tell us why you did not select the other two options as your preferred option.

As above

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

#### Social Media

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Since moving here 8 years ago, we have been impressed with MDC's wise and efficient investment in water services. Because I believe the MDC does water well, I think the status quo should remain. If we ever decide to move into town, our family would prefer the MDC to continue to be in sole control of Feilding's water infrastructure and service.

#### Please tell us why you did not select the other two options as your preferred option.

Generally, as has been seen with the merger of all the Auckland region-based councils into one council, services become more bureaucratic, inefficient, and more difficult to adapt to meet changing local needs quickly.

I don't trust the other councils to be mindful of the needs of the Manawatu residents and ratepayers.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

MDC Website

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

We've paid higher rates for as long as I can remember, for the privilege to live in a region that makes good investment in the necessary infrastructure. We shouldn't now be penalized to fund our neighbouring regions underinvestment in their "boring" infrastructure.

Please tell us why you did not select the other two options as your preferred option.

I personally do not wish to fund neighbouring regions underinvestment or to see our regions ability to make sound decisions on our infrastructure impacted by those that don't share the same priorities.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Makino

Feilding

#### Age Group:

30-39

Are you submitting on behalf of an organisation?

No

Are you an MDC trade waste and/or commercial water customer?

No

#### My property has:

Drinking water connected to MDC Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

Word of Mouth Social Media

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

As a Manawatu resident, the other options presented do not provide a positive use of my rates.

After reviewing the information, I believe the Manawatu council have been acting in the districts best interests in the 3 waters area

#### Please tell us why you did not select the other two options as your preferred option.

The other two options both look to rely on Manawatus rate payers to subsidise sub-par infrastructure investment by other councils.

Assuming that everything goes well, it would 30 years before a benefit would be returned to the Manawatu residents. If anything went wrong it could take even longer.

Other councils should accept responsibility for their poor management and either raise their rates to cover the necessary costs or reduce waste spending in other areas.

#### Please share any other feedback you have about water service delivery in the future.

The area I reside does require an investment in storm water management. I believe the council are aware of this and have this factored into their future plans.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Multi council collaboration often just adds another layer of bureaucracy and doesn't actually save money. It also may mean projects that don't benefit mdc are prioritized at the expense of mdc projects.

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Option One appears to be the most economical option for MDC ratepayers in both the short and long term. I believe controlling our own community assets and how they are managed is the best option in the long term.

Please tell us why you did not select the other two options as your preferred option.

I feel that inevitably costs of these options will be greater than what the modelling shows. I also feel that loss of control of services by our council is not in the best interest of ratepayers.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

I feel that the Manawatu District Council has done a lot of work to get to this position - I would like to see them continue to have the control. We pay high rates, I would like to see the money used in this area, rather than split between all the councils.

| Would you like to come to a hearing and speak to Elected Members about your submission? No                 |
| How did you hear about this Consultation?  |

Word of Mouth

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

MDC does a superb job at delivering water utilities to the region and has, fortunately for us, had the foresight and support to invest in this infrastructure before it became outdated or ineffective. MDC understands the importance of delivering effective infrastructure and has acted accordingly which has benefited the region immensely and has a good reputation for doing so. In fact this is a reason why I would prefer to keep living and paying rates in the Manawatu

#### Please tell us why you did not select the other two options as your preferred option.

I fear that by sharing our water infrastructure, MDC's great water/infrastructure team and resources will be stretched thin or thinned out to accommodate the inclusion of other regions and councils. MDC currently does their water uniquely well compared to other councils and while it is a nice idea to share this success with others - I feel it may come as a detriment to the Manawatu region.

Please share any other feedback you have about water service delivery in the future. Keep up the great work guys!!

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Social Media

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

The MDC has had high rates for a number of years which has been paying for the upgraded water infrastructure we now have.

Please tell us why you did not select the other two options as your preferred option.

Both options involve MDC getting into serious debt to assist other councils to sort their water infrastructure. That is not fair for MDC ratepayers.

Please share any other feedback you have about water service delivery in the future.

If the other nearby councils get their infrastructure sorted and paid for over the next 20-25 years, then we could look at amalgamating into a larger entity - but only if the other larger entities around NZ have proved that bigger is better. Auckland Water seems to prove otherwise.

Other

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

You are doing a satisfactory job with drinking water and wastewater and this is the least expensive option for me.

#### Please tell us why you did not select the other two options as your preferred option.

Both of the other options set up another body to manage water resources. This creates another body that is unresponsive to rate payers and which will have a bureaucracy of its own which will probably be headed by individuals making hundreds of thousands of dollars a year all supported by the increased cost for the service. Basically we are being asked to subsidize the work that the other councils need to do and which they most likely kept their rates lower for years while MDC ratepayers paid for all water improvements out of their most likely higher rates.

| The options:  |

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

#### Please tell us why you selected the above as your preferred option.

Keeping it simple within our region will hopefully keep it cheaper. The rural sector pay huge rates for next to no services from the council so we don't need more unaffordable rates hikes

Please tell us why you did not select the other two options as your preferred option. I don't trust other councils with our hard earned money

Please share any other feedback you have about water service delivery in the future. It would be huge for the rural sector to not be used as the councils cash cows when we use next to no services. It would be helpful to lower our rates accordingly

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth Social Media

#### The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Main reason is due to the lower cost over the next 20years

Please tell us why you did not select the other two options as your preferred option. Options more expensive for rate payers.

Unsure how it is proposed these groups will work. Will PNCC have more voice if they are putting in the majority of funds?

If a council pulls out then adds even more cost to other councils.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.
