Local Water Done Well Form Submission

There has been a submission of the form Local Water Done Well through your Make your mark Manawatu website.

First and Last Name:

[REDACTED]

Phone (day):

[REDACTED]

Mobile:

[REDACTED]

Email:

finlayson.evie@gmail.com

Postal Address:

[REDACTED]
[REDACTED]

Age Group:

40-59

Are you submitting on behalf of an organisation?

No

Are you an MDC trade waste and/or commercial water customer?

No

My property has:

Drinking water connected to MDC

Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Newspaper

Social Media

Word of Mouth

MDC Website

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Our rates have paid for our quality services, other councils should have done the same.

Please tell us why you did not select the other two options as your preferred option.

It is unfair to be paying towards other district's poor services when their council should have managed them better and charged rates for that accordingly.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Yes

No

My property has:

None of the above

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Other

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I believe from the information available from the Council that the Manawatu District would be negatively impacted financially if we chose any other option and while a collective approach works for some aspects of government management I don't agree that this would be one of those instances.

Please tell us why you did not select the other two options as your preferred option.

That seems like a repeat of the above question....surely the answer is the same?

Please share any other feedback you have about water service delivery in the future.

I don't have any water delivery so havent taken an active interest in the system except that I know all councils are short of funding.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

How did you hear about this Consultation?

Social Media

Other

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC have over several councils had a focus on a future plan for our water and waste water services and has put those plans into action. We as a community can see where our rates are going and how every one in our community benifits.

Please tell us why you did not select the other two options as your preferred option.

If we went with opion 2 or 3, our community would get swallowed up by a larger council. In this case bigger is not better. We can see this with this example of MDC better managed three waters programme, when compared to PNCC 3 water programme.

Please share any other feedback you have about water service delivery in the future.

MDC need to stand there ground as a strong example of spending rate payers money responsibly and showing New Zealand that planning (not having a blow out budget) can be good for our communities.

Keep up the good work council.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

☒ My choice is option 01

Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

☐ My choice is option 02

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

Keeps the asset under Manawatu District Council Control
Avoids another layer of administration and the infrastructure for it.
Avoids us having to pay another rates account

Have your say on
Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

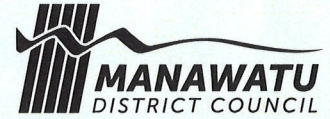

They will require a new controlling
and administration body which will
then be under pressure from the
different councils

Just another layer of Bureaucracy
thats not needed.

Do not want another rate account.

11. Please share any other feedback you have about water service delivery in the future.

9. Please tell us why you selected the above as your preferred option?

I am aware of the water issues in general countrywide. Knowing the integrity of Feilding's water infrastructure investment is something our town should be proud of. To amalgamate with any other town or city would not advantage Feilding in any way in my opinion, but rather the opposite would be the case.

I have strong opinions on council projects and spending and do not agree with everything they do. However this is an area that I consider the council should remain steadfast in staying with option 1 thereby servicing the water management needs of its constituents - the ratepayers.

Thank you

Have your say on

Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

For same reasons MDC did not want to join those options.

11. Please share any other feedback you have about water service delivery in the future.

I think that although service delivery in Manawatu District is the better option, sharing in a buying partnership for hardware (pumps, pipes, etc) could be beneficial for all councils.

All councils will have some idea of their purchasing requirements each year, so a combined tender process could provide mutually beneficial cost savings.

Possibly some kind of technical sharing is possible as well.

The point is, some co-operation may be beneficial. The decision does not have to be all in or all out. We may need to cooperate in the future.

Please feel free to attach additional numbered pages.

2. Age Group:

We are asking the age of submitters as this is a decision that will impact our District for decades. Different age groups may have different opinions.

☐ Under 18 ☐ 18 - 29 ☐ 30 - 39 ☐ 40 - 59 ☒ 60 - 79 ☐ 80 plus

3. Are you submitting on behalf of an organisation? ☐ Yes ☒ No

If yes, this confirms you have the authority to submit on the organisations' behalf.

*Name of Organisation: [REDACTED]

4. Are you a MDC trade waste and/or commercial water customer?

☐ Yes ☒ No

5. My property has: tick all that apply

- ☐ Drinking water connected to MDC
☐ Wastewater connected to MDC
☒ None of the above

6. Would you like to come to a hearing and speak to Elected Members about your submission?

☐ Yes ☒ No

If you ticked yes, an MDC Officer will be in touch to confirm the date and time.

7. How did you hear about this consultation?

- ☒ Newspaper ☐ MDC Website
☐ Social Media ☒ Other
☐ Word of Mouth

Submission Form

Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

☒ My choice is option 01

Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

☐ My choice is option 02

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

- The water services of the MDC are functional, up to date, and set up for the future with a new bore for water ready to go
- The administration of MDC's waterservices is working well
(I have also a residential property in Feilding connected to drinking water and waste water)
- Why fix something that is not broken?

Submission Form

Have your say on

Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

- Option 02 and 03 will need a more complex organisation with associated costs
- MDC might have to subsidize inadequate waterservices in other districts
- Option 02 and 03 gives control over waterservices to a multi-council organisation. Residents of Manawatu have no direct influence in this organisation through their vote in local government elections.

11. Please share any other feedback you have about water service delivery in the future.

The quality of the drinking water in Feilding could be improved

Please feel free to attach additional numbered pages.

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

My choice is option 02

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

My choice is option 03

9. Please tell us why you selected the above as your preferred option?

We are very satisfied with the way our area water scheme operates. Last time the council took it over was not a success. If it ain't broke it doesn't need fixing. I believe the council used up moneys that had been raised by the scheme and left it in a worse state than it had been before.

**Have your say on
Local Water Done Well for Manawatū District**

10. Please tell us why you did not select the other two options as your preferred option?

I do not like them. I feel our council has done a good job controlling the water etc in Feilding, big organisations are often more expensive and less effective. We have a good water scheme organisation out here that was put in by locals why should Palmerston North organisations have a say in that.

11. Please share any other feedback you have about water service delivery in the future.

Postcode: 4702

2. Age Group:

We are asking the age of submitters as this is a decision that will impact our District for decades. Different age groups may have different opinions.

☐ Under 18 ☐ 18 - 29 ☐ 30 - 39 ☐ 40 - 59 ☐ 60 - 79 ☒ 80 plus

3. Are you submitting on behalf of an organisation? ☐ Yes ☒ No

If yes, this confirms you have the authority to submit on the organisations' behalf.

*Name of Organisation:

4. Are you a MDC trade waste and/or commercial water customer?

☐ Yes ☒ No

5. My property has: tick all that apply

- ☒ Drinking water connected to MDC
☒ Wastewater connected to MDC
☐ None of the above

6. Would you like to come to a hearing and speak to Elected Members about your submission?

☐ Yes ☒ No

If you ticked yes, an MDC Officer will be in touch to confirm the date and time.

7. How did you hear about this consultation?

- ☐ Newspaper ☐ MDC Website
☐ Social Media ☒ Other
☐ Word of Mouth LIBRARY

Submission Form

Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

My choice is option 01

Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

My choice is option 02

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

My choice is option 03

9. Please tell us why you selected the above as your preferred option?

1. I am very happy with the water supply we have now, especially so, since the Kairanga aquifer came into operation.
2. I think the Sewerage treatment plan properly needs an update, as I hate to see sewerage going into our rivers eg. Queenstown & Palmerston North.
3. That is why MDC should have control over our own water resources & effluent. We are the only ones who should be responsible. We don't want interference from others.

Submission Form

Have your say on Local Water Done Well for Manawatū District

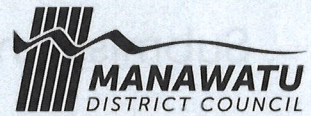

10. Please tell us why you did not select the other two options as your preferred option?

See reasons 2 & 3.

11. Please share any other feedback you have about water service delivery in the future.

Please feel free to attach additional numbered pages.

Drinking water connected to MDC

Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Other

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I believe that Manawatu District Council has invested heavily in upgrades of water and wastewater in recent years and our rates have reflected that. I trust that our district is now well set-up for the future management and delivery of water services.

Please tell us why you did not select the other two options as your preferred option.

As above I believe that Manawatu District Council has invested heavily in upgrades of water and wastewater in recent years and our rates have reflected that. I am concerned that other Councils may not have invested so heavily in future-proofing their water services and Manawatu ratepayers may be disadvantaged.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

MDC Website

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

As a rate payer MDC we do not want our water management under the PNCC umbrella. They have enough rate payers of their own to get their own water systems upgraded and up to standard.

Please tell us why you did not select the other two options as your preferred option.
as above

Please share any other feedback you have about water service delivery in the future.

I would like MDC to always continue to upgrade, systems as required to ensure all water management is always ahead of future growth in and around Feilding.

Prefer our own district control and delivery this too our town, justfeel if we gO with other 2 options we might not get a say

Please tell us why you did not select the other two options as your preferred option.

I think our district council make good decisions for our town and wouldn't like other towns saying what we needed, have to do, or other town affecting our water to our residents

Please share any other feedback you have about water service delivery in the future.

If we go with our council running water options I would rather have to go with water restriction because it affect oyt town motor another town

Social Media
MDC Website
Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

For many years the Manawatu district has been forward looking and proactive in the management of its water reticulation. This also applies to its wastewater collection and sewage treatment facilities. I see no reason to change a system that is working so well. As the old saying goes – “If it aint broke, don’t fix it”.

Please tell us why you did not select the other two options as your preferred option.

I defy anyone to give me a good reason why I should pay money to fix a problem that is not mine, which has been caused by years of neglect and poor management by others and which, if fixed, offers me no benefit. Other councils in the second and third options have spent years doing nothing to their respective infrastructures and are now reaping the results of that neglect. If we are to merge at some point in the future, let it be at a time when they can match our levels of excellence.

Please share any other feedback you have about water service delivery in the future.

I am of the firm belief that homeowners such as myself, who rely on rainwater for our homes, should never have to pay towards any form of town water supply. As we are connected to stormwater and sewage, I have no problem with paying for those. As to when I sell my property, it should always remain the prerogative of the homeowner as to whether they wish to connect to a town supply, and never at the direction of this or any future council.

Taumata o Te Rā Marae - Ngāti Manomano

Are you an MDC trade waste and/or commercial water customer?

No

My property has:

Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

1. We don't want to subsidise other districts. We pay enough rates as is.
2. Council retains full ownership and management of water services, and is able to ensure decisions are made with the community's best interest in mind.
3. With the council directly responsible, we can engage with our elected representatives to address concerns or provide input on water services.

Please tell us why you did not select the other two options as your preferred option.

1. We believe this may result in uneven cost distribution, we'll end up subsidising the other councils.
2. Including other councils may result in conflicting priorities - will the larger councils get more of a say with their larger populations?
3. Any decisions about water services would be shared across multiple councils, this may potentially dilute the influence of Manawatu's specific needs.

Please share any other feedback you have about water service delivery in the future.

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC has worked so hard to get our water to the stage that it is in now by upgrading our infrastructure - pipes, pump station etc - when needed and not leaving it to fall into disrepair and just do patch jobs. I don't think other councils should benefit from our dedicated team when they have let their water woes end up in a huge mess. Our rates may be a little higher than other local councils but personally I would rather pay a little more and have the water supply that we have.

Please tell us why you did not select the other two options as your preferred option.

Think I answered this in the above.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Social Media
Newspaper

The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC has done a great job of front footing the waste water issue. The assets need to remain in MDC control of its rate payers. Whilst we personally have been affected by the development on Kawakawa road, (due to our location) we would not want to see this grow much bigger unless newer / better technology is employed to mitigate environmental impact.

Please tell us why you did not select the other two options as your preferred option.

Pncc is well behind the 8 ball having supported the previous govt led scheme and neglecting to spend more money on their own scheme. (Reports publicised in the last few years). There is a real risk MDC rate payers will end up having to pay for their mismanagement and as a smaller community there is every chance we lose our voice in the process.

Please share any other feedback you have about water service delivery in the future.

We are on tank water, happy to stay that way. Would like to see sewerage pipe access extended from town to Stewart rd especially with more building / subdivision in /he near future.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I would much prefer that the water supply and the control of it to stay under the control of the Manawatu Ckty council. Doing what is right for our town not what is right for other council's. Our rates cover what effects us, and not everyone else.

Please tell us why you did not select the other two options as your preferred option.

I want our council to have control over what is done with the water and not be swayed by other councils and rate payers. We the Feilding rate payers should have a say and be able to dictate our needs over other councils needs.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Very satisfied with MDC as sole operator. Problems quickly dealt with, they have many years of operating satisfactorily in this area.

Please tell us why you did not select the other two options as your preferred option.

Having other councils involved will doubtless result in higher costs for ratepayers. We need to control our own resources. Totally against other councils' involvement.

Feilding

Manawatu

Age Group:

40-59

Are you submitting on behalf of an organisation?

No

Are you an MDC trade waste and/or commercial water customer?

No

My property has:

Drinking water connected to MDC

Wastewater connected to MDC

Would you like to come to a hearing and speak to Elected Members about your submission?

No

How did you hear about this Consultation?

Social Media

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Best option available to benefit the Manawatu.

Please tell us why you did not select the other two options as your preferred option.

The other options only make it harder to get what we want and we pay more for other councils.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC ratepayers have invested far to much to be all of a sudden have to babysit other councils that have not been as proactive over the last decades. Also MDC does fresh water, storm water and waste water much better that any other council in these submissions

Please tell us why you did not select the other two options as your preferred option.

Have no faith in these other councils. Most of them have not had a future looking forward plan for water services. EVER!!!

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

How did you hear about this Consultation?

Word of Mouth

The options:

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

The MDC has a robust water system at present. The council has kept up with a good maintenance system and its working to improve all services when able too.

Please tell us why you did not select the other two options as your preferred option.

Joining other councils to save money is only a dream. From past experiences, ie, in the late 1980s when the Manawatu district council was formed, and a number of small councils were forced into one our rates first doubled and then trebled over a very short time. Our assets that we had were sold and used to offset large debts with very little coming back to us the small rate payer group.

Please share any other feedback you have about water service delivery in the future.

We have always believed in user pays, so when is the MDC going to introduce water meters to all uses connected to the Feilding water scheme. At the moment a single person in a 2 bedroom house is paying the same as a family of 6 in a 4 bedroom house. This will also save a large amount of water being wasted, this is what happened at Waikanae where their water usage dropped immediately.

Social Media

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I think this is best for the Manawatu.

Please tell us why you did not select the other two options as your preferred option.

I think we would be worse off if we joined other councils. Our council has done a lot of work and put a lot of resources into our water and waste systems. Joining other councils would benefit them but put us at a major disadvantage, as we would then have to pay for their upkeep on their neglected systems.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Option 01: This option would continue to see Manawatū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I went to a community consultation meeting and it was very clear. Status quo. Less cost on All ratepayers. Less paperwork and time, can just get on with the job. We do not need to subsidize other councils

Please tell us why you did not select the other two options as your preferred option.

Cost. Time. Unnecessary paperwork

Social Media

The options:

Option 03: A multi-council Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Palmerston North City Council, Manawātū District Council for the delivery of water services across all Councils.

Please tell us why you selected the above as your preferred option.

Combining the services of the councils will give scale advantages that could not be achieved by each council on its own. Expectations are to keep costs low but there are also advantages from having a more joined up system between the councils and making a coordinated effort. The costs of operating one combined CCO are likely to be lower than the costs of operating multiple CCO's for each council. There are likely also advantages from being able to operate water systems across current council boundaries.

Please tell us why you did not select the other two options as your preferred option.

Decisions should not be made solely on the cost to ratepayers as that is only one factor. I would like to see adequate drinking water in particular in my district - MDC hasn't done a great job on its own to date so something needs to change beyond the 'status quo' option. We have regular occurrences of yellow or brown water out of our taps when it has rained, especially after it has been dry for a while. Feilding frequently has issues with flooding in periods of prolonged rain or very heavy rain. Again, something needs to change in the council and I don't think the status quo option is sufficient.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I rather our rates be spent locally on our infrastructure rather than prop other councils infrastructure that they didn't have the foresight to maintain their own infrastructure and now want to pass the buck to a more financial council, we didn't want three waters and I certainly don't want two or four waters either.

Please tell us why you did not select the other two options as your preferred option.

As above, don't want pay for other peoples laziness because they are waiting on central government or other local councils to prop them up instead

Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Because this has been working, so why change it now.

Please tell us why you did not select the other two options as your preferred option.

The cost associated with the other two options for rate payers. The legalities of different councils trying to prioritize the needs of their districts does not seem feasible. Smaller towns are likely to be a smaller priority compared to the likes of palmerston north if issued with supply and quality occurred.

Please share any other feedback you have about water service delivery in the future.

Discoloration of water supply regularly needs addressing.

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I believe that Manawātū District Council have invested wisely in future proofing our assets. We have the infrastructure to continue the way we are. Why should we bail out other districts for not doing the same.

Please tell us why you did not select the other two options as your preferred option.

Refer to above answer...

We shouldn't have to spend our own money and resources on bailing out neighbouring districts because they haven't been smart enough to think ahead.

Please share any other feedback you have about water service delivery in the future.

Why should the greater region get to decide who needs the resources more based on who's behind infrastructure wise? We should continue to invest in ourselves and maintaining a good standard, not bailing out others.

How did you hear about this Consultation?

Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

I think the Manawatu council is best placed and best understands the water needs of the area, hard lessons learnt from the flooding in the past. To include it alongside Palmerston north and the other areas could dilute the focus away from the planned works. Also, changing beaurocratic structures and proceses always takes a lot longer then everybody plans for and seems to always cost a lot more then initially thought. It could end up wasting a lot of the ratepayers money filling consultants pockets for no community benefit.

Please tell us why you did not select the other two options as your preferred option.

As above, and also because the other areas have a different makeup of people, businesses, and even political and philosophical leanings.

Please share any other feedback you have about water service delivery in the future.

I don't know if this may already be in place but there needs to be a plan, finances set aside and a realistic model supporting people and equipment to be available to rapidly repair any flood defences that get damaged in major floods. Having a planned ability to mobilise this workforce rapidly after or partly during a flood could prevent worse damage from any soon-to-follow flood. I don't know if this is realistic but this could even include a council-managed volunteer labour component - a proactive version of what happened in with the Christchurch earthquakes where volunteer 'armies' sprang up to help clear silt out of houses etc.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Newspaper

Word of Mouth

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

MDC has been proactive in managing the water, waste water over a number of years and these are now in good order.

If MDC went with other options the rate payers may have to subsidise the neighbouring councils upgrades.

Please tell us why you did not select the other two options as your preferred option.

The other councils have been slow in upgrading there infrastructure and now want MDC to help fund them.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

Newspaper

The options:

Option 01: This option would continue to see Manawātū District Council continuing to manage and delivery the District's water services. This is Council's preferred method.

Please tell us why you selected the above as your preferred option.

Our Rates and the wise financial strategies of our Council have given us a water system that performs well.

Please tell us why you did not select the other two options as your preferred option.

The other two options will result in our Rates being used to repair and maintain the poorly maintained water systems of other Councils. They made their beds, now they can sleep in them.

Please share any other feedback you have about water service delivery in the future.

I resent having to remove neurotoxins from my drinking and cooking water. In my opinion, the water supplied to me should be potable. Fluoridation, like lead and asbestos before it, is being rejected by a growing number of countries as its dangers are becoming apparent.

How did you hear about this Consultation?

Other

The options:

Option 03: A multi-council Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

Please tell us why you selected the above as your preferred option.

Because I believe working with other Councils to provide water services over a wider area is the most efficient option for the people receiving those services. I can also see that this is what Central Government are steering us towards.

Please tell us why you did not select the other two options as your preferred option.

From the consultation document and comments made at the public meeting I am not confident that MDC has thoroughly considered the financial implications of a ring fenced business unit. When water revenue (which is 37% of my rates bill) is taken out of the borrowing equation it is quite hard to see how my rates won't be affected.

I am also not in favour of the the Palmy/MDC option as it does not appear to be an option Palmy are consulting on and the comments at the public meeting seemed to suggest that MDC had a fairly dim view of PNCC. So it very much seems to be a throw away option, as opposed to something seriously being considered.

I wish to request that my name and contact details be withheld from general publication by ticking this box. Please note that if you wish to speak to your submission at the hearing, your name (but not your contact details) will be published within the Council Agenda.

*Phone (day): [REDACTED] Mobile: [REDACTED]

*Email: [REDACTED]

*Postal Address: [REDACTED]

Feilding Postcode: *4702*

2. Age Group:

We are asking the age of submitters as this is a decision that will impact our District for decades. Different age groups may have different opinions.

☐ Under 18 ☐ 18 - 29 ☒ 30 - 39 ☐ 40 - 59 ☐ 60 - 79 ☐ 80 plus

3. Are you submitting on behalf of an organisation? ☐ Yes ☒ No

If yes, this confirms you have the authority to submit on the organisations' behalf.

*Name of Organisation: _____

4. Are you a MDC trade waste and/or commercial water customer?

☐ Yes ☒ No

5. My property has: tick all that apply

- ☒ Drinking water connected to MDC
- ☒ Wastewater connected to MDC
- ☐ None of the above

6. Would you like to come to a hearing and speak to Elected Members about your submission?

☐ Yes ☒ No

If you ticked yes, an MDC Officer will be in touch to confirm the date and time.

7. How did you hear about this consultation?

- ☒ Newspaper ☐ MDC Website
- ☒ Social Media ☐ Other
- ☒ Word of Mouth

Submission Form

Have your say on Local Water Done Well for Manawatū District

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 Status quo with changes

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

☒ My choice is option 01

Option 02 'The Two'

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

☐ My choice is option 02

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

We already have paid high rates to upgrade/maintain our water systems so we don't want to lose all our assets we have worked hard to upkeep by having to share with our Councils.

We don't want other Councils to have a say on what happens to our water when they don't have the knowledge of our district as they will want their district to come first have better service so our resources become stretched and may compromise the quality of our water systems.

We do not need increased rates that will come with a multi-council water service. Our rates are already high.

We don't want water metres.

Submission Form

Have your say on

Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

I think I answered this already at 9. Whoops.

We need to keep our district's water under our management so it can be dealt with properly and safely without being too big.

11. Please share any other feedback you have about water service delivery in the future.

If we keep the status quo we need to ensure we do it properly to the best of our ability so we can look after what we have worked hard to keep. Put the money of rate payers to good use upkeeping a system that works well.

9. Please tell us why you selected the above as your preferred option?

The council has done well in recovering from the river fiasco, years ago.

The wells near Bunnythorpe were very forward thinking and have done well. - Brilliant.

Felding is growing so they may not be enough in the future.

Believe we should have 'watering restrictions' even if they are not critically necessary. It teaches us value of water. - even days - odd days. etc.

Big is not beautiful. - They'll suck us dry.

8. The options: Please select your preferred option (select one option only).

Council's
Preferred Option

Option 01 **Status quo with changes**

This option would see Manawatū District Council continuing to manage and deliver the District's water services. This is Council's preferred method.

☒ My choice is option 01

Option 02 **'The Two'**

A multi-council Water Services Council Controlled Organisation jointly owned by Manawatū District Council and Palmerston North City Council for the delivery of water services across both Councils.

☐ My choice is option 02

Option 03 **'The Four'**

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

We have invested in our water infrastructure over the years, let us enjoy it ourselves with no water restrictions.

Submission Form

Have your say on Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

If we went with Palmerston North City Council, with a much bigger population for voting purposes, we would be small fry in the big plan

11. Please share any other feedback you have about water service delivery in the future.

Please feel free to attach additional numbered pages.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

I would choose Option 01 (Status quo with changes)
From what I see MDC have situation well in
hand. We don't need other Areas imposing
on MDC good works considering quality &
quantity of Drinking water and the handling
of waste & storm. Keep up the good
work
Signed H B Horob

Have your say on
Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

Any inter action with other areas would
Rely on MDC systems

11. Please share any other feedback you have about water service delivery in the future.

Other AREAS Do not have suitable
systems in hand and would lead to
Rates & water services inferior to MDC.
Our costs would go up. if we had to
support other AREAS.

Option 03 'The Four'

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services in the Manawatū District.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

Feilding Borough Council and Manawatu District Council have invested in our 3 water infrastructure consistently and to a good level over the last 3 decades, unlike surrounding local bodies.

Consequently our rates have been high, but we have adequate water infrastructure.

It would be unacceptable to have to pay for other areas' infrastructure after paying for our own.

Have your say on Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

I do not want to subsidise Palmerston North water infrastructure after PNCC's shameful neglect of waste water infrastructure over many years.

It is disgraceful that PNCC had to be sued by ~~Horizons~~ due to their poor neglect of ~~the~~ sewage treatment.

Don't want to subsidise "the four" either!

11. Please share any other feedback you have about water service delivery in the future.

It is important MDC continue to ensure adequate potable water supply, and appropriate waste water treatment into the future.

A Water Services Council Controlled Organisation jointly owned by Horowhenua District Council, Kāpiti Coast District Council, Palmerston North City Council, Manawatū District Council for the delivery of water services across all Councils.

☐ My choice is option 03

9. Please tell us why you selected the above as your preferred option?

So that MDC can look after our district and is not responsible for any other council water services. Our rates should be for MDC to use specifically for our district.

I feel each district have different environments and too broad. Also MDC should be involved personally not a board who decides which district receives or decides how to use MDC rates.

Our rates are higher than most other districts which I feel is an unfair disadvantage.

Have your say on

Local Water Done Well for Manawatū District

10. Please tell us why you did not select the other two options as your preferred option?

mdc Rates should be used
specially to mdc District

11. Please share any other feedback you have about water service delivery in the future.
