Petition to New Zealand Transport Agency (NZTA)

There have been increased volumes of traffic in Feilding since the intensification of housing in the north and an expanded industrial zone in the south. This has caused delays and increased danger at several intersections on Kimbolton Road and Aorangi St/Waughs Rd.

We, the undersigned, petition the New Zealand Transport Agency (NZTA), as the agency responsible for promoting safe and functional land transport, to urgently provide two roundabouts in Feilding to prevent a serious accident occurring; one at the intersection of Kimbolton Road (SH54) and North Street and another at the intersection of South St, Aorangi St and Waughs Rd (also SH54).
We are aware this requires a business case to be provided which is to be funded by Manawatu District Council at a cost of approximately $225,000.

change.org 1088

Install roundabouts at key Feilding intersections

Petition to New Zealand Transport Agency (NZTA)

There have been increased volumes of traffic in Feilding since the intensification of housing in the north and an expanded industrial zone in the south. This has caused delays and increased danger at several intersections on Kimbolton Road and Aorangi St/Waughs Rd.

We, the undersigned, petition the New Zealand Transport Agency (NZTA), as the agency responsible for promoting safe and functional land transport, to urgently provide two roundabouts in Feilding to prevent a serious accident occurring; one at the intersection of Kimbolton Road (SH54) and North Street and another at the intersection of South St, Aorangi St and Waughs Rd (also SH54).
We are aware this requires a business case to be provided which is to be funded by Manawatu District Council at a cost of approximately $225,000.

Petition to New Zealand Transport Agency (NZTA)

There have been increased volumes of traffic in Feilding since the intensification of housing in the north and an expanded industrial zone in the south. This has caused delays and increased danger at several intersections on Kimbolton Road and Aorangi St/Waughs Rd.

We, the undersigned, petition the New Zealand Transport Agency (NZTA), as the agency responsible for promoting safe and functional land transport, to urgently provide two roundabouts in Feilding to prevent a serious accident occurring; one at the intersection of Kimbolton Road (SH54) and North Street and another at the intersection of South St, Aorangi St and Waughs Rd (also SH54).
We are aware this requires a business case to be provided which is to be funded by Manawatu District Council at a cost of approximately $225,000.

Petition to New Zealand Transport Agency (NZTA)

There have been increased volumes of traffic in Feilding since the intensification of housing in the north and an expanded industrial zone in the south. This has caused delays and increased danger at several intersections on Kimbolton Road and Aorangi St/Waughs Rd.

We, the undersigned, petition the New Zealand Transport Agency (NZTA), as the agency responsible for promoting safe and functional land transport, to urgently provide two roundabouts in Feilding to prevent a serious accident occurring; one at the intersection of Kimbolton Road (SH54) and North Street and another at the intersection of South St, Aorangi St and Waughs Rd (also SH54).
We are aware this requires a business case to be provided which is to be funded by Manawatu District Council at a cost of approximately $225,000.

Petition to New Zealand Transport Agency (NZTA)

There have been increased volumes of traffic in Feilding since the intensification of housing in the north and an expanded industrial zone in the south. This has caused delays and increased danger at several intersections on Kimbolton Road and Aorangi St/Waughs Rd.

We, the undersigned, petition the New Zealand Transport Agency (NZTA), as the agency responsible for promoting safe and functional land transport, to urgently provide two roundabouts in Feilding to prevent a serious accident occurring; one at the intersection of Kimbolton Road (SH54) and North Street and another at the intersection of South St, Aorangi St and Waughs Rd (also SH54).
We are aware this requires a business case to be provided which is to be funded by Manawatu District Council at a cost of approximately $225,000.
